Sir,

Land Development - Malabar District Attappady
Valley - Development and colonisation - Progress
report for the first quarter ending 31.3.1953-
submitted.

G.O.Ms.No.5323.Dev.Dept. dt.11.12.1952.
Board's Ref.No.T.1109/53.2.dt.30.3.1953.
My report Ref.C1.31087/52.dt.22.4.1953.
.....

A : I invite attention to paragraphs 1 and 3 of the G.O.
cited. Permits under the M.P.P.F.Act for clearing 50 acres of
Forest land for plantation purposes in the Attappady valley
were granted by me during the quarter. Applications for the grant
of permits for clearing 289.5 acres of forest land in the valley
are pending enquiry. I have also received applications seeking per-
mission to lease 1375 acres of private lands for cultivation
purposes under the Act. They are also pending enquiry by the
Subordinate officers.

2. In this connection, I submit that there is consider-
able risk in the orders of the Government that permits may be given
immediately under the M.P.P.F.Act for clearance and cultivation in
the Attappady valley to private people. This will mean the extin-
ction of the Irulas from Attappady valley unless sufficient care is
taken to safeguard their interests. In permits issued for clearance
of forest-lands in Attappady, I have laid down conditions that so
much land should be reserved for Irula occupation and should not be
cleared. But there is no possibility of enforcing this condition
legally as the M.P.P.F.Act is a weak piece of legislation. It is
therefore necessary to preserve the identity of the Irulas before
permission is granted for clearance and cultivation. Another import-
ant point to be considered is the delimitation of big blocks of
private forests which are suitable for future reservation and which
should be kept in tact without allowing any clearance. In the
circumstances permits for clearance in the valley can be given only
after very careful enquiry.
